BCA Quality Initiative
Name and Mailing Data Accuracy Activity

Impacted Data Advice Customers

Subscribers to BCA data advice weekly/monthly may notice increased activity on properties as BC Assessment (BCA) completes the name and mailing data accuracy activity in September to October 2017.

Summary of BCA Quality Initiative

The bulk mail grouping data accuracy activity is a targeted review of property owner name and mailing information to improve upon BCA's high standard of assessment roll quality.

These are primarily cosmetic changes to name and mailing data attributes (e.g., ensuring all qualified owners are assigned a bulk mail grouping) and are not intended to suggest that the Land Title and Survey Authority (LTSA) has updated the legal title for a property or that the property owner has updated their mailing address with BCA.

Impact on Data Advice

Data Attribute	Est. Updates (Provincial)	Notes
Bulk mail #	175,000	Adding bulk mail # for grouping to approx. 2,200 property owners.
Last/company name	12,500	Company name standardization applied to approx. 8,000 property owners.
