DATA ADVICE QUALITY INITIATIVE

Provincial Residential Land Project 2016

Impacted Data Advice Clients

All customers that subscribe to Data Advice and/or RC900 Ownership and Legal Description Change Reports will be impacted.

Purpose of Bulletin

This bulletin is to inform you that effective April 18, 2016 BC Assessment will not be processing residential subdivisions, which will reduce the data included in the weekly/monthly Data Advice files.

BC Assessment is commencing work on a province-wide residential land project immediately. During this time, we will be unable to process residential subdivisions. Due to the scope and magnitude of the project, BC Assessment will only be able to process subdivisions on non-residential folios (ie: commercial strata, residential strata and other non residential properties). As the project is completed in each jurisdiction, we will be notifying our internal BCA staff immediately so that they can complete their work on the backlog of subdivisions.

We understand the implications to you and are working diligently to complete the project as quickly as possible. Please note that this project will not impact the provision of ownership change data.

Contact Information

If you have any Data Advice questions, please contact the BCA Property Information team at:
