

DATA ADVICE BULLETIN:

How to Process Weekly Data Advice & Ownership Change Reports in March and April

Impacted Data Advice Customers

For **Data Advice** Customers that subscribe to **both** our Revised Roll Data Advice **AND** our Weekly/Monthly Data Advice.

Purpose of Bulletin

This bulletin is a reminder of the importance of downloading and processing Data Advice files in the correct sequence between the Revised Roll closure date (March 18, 2019) and the 2019 Revised Assessment Roll data advice released March 29, 2019. If your files are processed out of sequence, the most current data may be overwritten with earlier data.

Check Audit Report

As a first step, before downloading and processing any Data Advice .xml files (or manually keying from the Change Reports), please check the corresponding Audit Report for Data Advice. This report provides an overview of the contents of the Data Advice file including the date range.

The date range can be found in the heading of the report. Examples below:
